Taking advantage of opportunities – avoiding risks

IT security affects us all

Effective security is only possible when everybody involved contributes.

The European Cyber Security Month (ECSM) is an EU advocacy campaign.

It promotes cyber security among citizens and advocates for change in the perception of cyber-threats, by promoting data and information security, education, sharing of good practices and competitions. Supported by ENISA and EC DG CONNECT.

IN PARTNERSHIP WITH...

THE POLICE CRIME PREVENTION OF THE FEDERAL STATES AND THE FEDERAL GOVERNMENT (PROGRAMM POLIZEILICHE KRIMINALPRÄVENTION DER LÄNDER UND DES BUNDES (PROPK)), FRAGFINN.DE, STATE MINISTRY OF THE INTERIOR OF SAXONY

Achievements & Metrics

1 ONLINE RESEARCH:

We'll ask citizens in 10 questions what they know about IT security, how they protect themselves and which experiences they have regarding threats on the internet. The results of this research will be implemented in the ECSM campaign for 2016

2 IT SECURITY STAMMTISCH IN SAXONY:

The IT Security Stammtisch is a regular event of "Silicon Saxony e.V." in cooperation with several technology companies in Saxony. In October 2015 it will take place for the 6th time and will handle the topic "IT security as challenge for public administration".
